

METHODS AND COMPOSITIONS FOR GLYCOPROTEIN GLYCOFORMS

Abstract of the Disclosure

5 This invention relates to novel glycoprotein glycoform
preparations comprising the substantially homogeneous
glycoprotein glycoforms and combinations thereof. More
particularly the invention relates to glycoprotein preparations
comprising a particular Fc glycoforms and methods for producing,
10 detecting, enriching and purifying the glycoforms. The invention
further relates to immunoglobulins and especially antibodies
comprising a CH2 domain having particular N-linked glycans.
Provided are compositions including pharmaceutical compositions
methods of using the preparations as well as articles of
15 manufacture comprising the preparations.
